Bio gas plants

Sewage Treatment Plant

7.1.3

Institution waste management practices include 1. Segregation of waste 2. E-waste management 3. Vermi-compost 4. Bio gas plants 5. Sewage Treatment Plant

Solid Waste Management

College of Education and Indira College of Education, Nanded has taken initiatives to segregate the waste at source which is the first and most important step in waste management. The college encourages the process of eco-friendly waste disposal method. Maximum waste generated is recycled and reused. Each Block and Each floor is provided with dry waste collecting bins every day and collected, the same is transported to the concerned places and segregate and hand over to concern. Sufficient quantity of bins provided at wet waste prone areas like cafeteria, food courts etc. There are dustbins placed at specific points in the college Premises.

Liquid Waste Management:

Liquid waste from the canteen & the wash rooms is collected into pools, recycled using four beds filtration method will further be used for watering the gardens. The laboratory waste water does not contain hazardous chemicals and periodical monitoring is done by the maintenance team. At RO plant also waste water collected. This water is then used for the gardening and other ~~purp~~ Institution also conducts discussions with students to make them aware about the liquid waste management techniques.

E-Waste Management:

The condemned batteries and damaged computers are disposed through outside agencies. Obsolete computers and other electronic gadgets are sold to recyclers. E-Waste Management: Electronic goods are put to optimum use; the minor repairs are set right by the Laboratory assistants and teaching staff; and the major repairs are handled by the Technical Assistant and are reused. Metro Security System pvt. Ltd. Nanded has a State-Of-The-Art Warehouse meant for storage, dismantling and recycling of electronic waste with the support of latest technology. The equipment which cannot be refurbished for re-use is dismantled and remanufactured into raw materials (i.e. metals, plastics, glass) to be marketed as recyclable. The company assures that the E-waste does not end up in a landfill.
